

DEEPAK KANDPAL

+91 9917961832 | Pantnagar, Uttarakhand, India

deepakkandpal.tech@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

Education

B.Tech in Computer Science and Engineering, Graphic Era Hill University

CGPA: 7.77/10 | 2022-2026

Skills

Languages	JavaScript, TypeScript, C++, SQL
Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux
Backend	Node.js, Express.js, REST APIs, JWT Authentication, Zod
Databases	PostgreSQL, MongoDB, Prisma ORM, Drizzle ORM, Mongoose
Tools	Git, GitHub, Docker, Postman, Cursor, Zed

Experience

Software Development Engineer (SDE) Intern

Jun 2026 – Aug 2026

sevaSYNC Digital Solutions Pvt. Ltd.

Remote

- Developed and maintained full-stack web applications using **Next.js**, **PostgreSQL**, and **REST APIs**, implementing frontend features and backend services.
- Managed **Docker-based deployments**, server environments, and production releases while troubleshooting application and deployment issues.
- Contributed to **web, mobile, and backend** development, collaborating with the marketing team to implement product updates and feature requirements.

Projects

CareerForge *React.js • Node.js • Express.js • MongoDB • Groq AI • JWT • Tailwind CSS*

[Live](#) | [GitHub](#)

- Developed an AI-powered resume builder with **4+ AI features**, including PDF data extraction, JD-based tailoring, ATS scoring, and AI-generated cover letters.
- Implemented **JWT authentication** with protected routes, auto-save, drag-and-drop editing, and ImageKit-based image management across the resume builder workflow.
- Designed MongoDB schemas with a **2-field compound index** on `userId` and `updatedAt`, configured **maxPoolSize: 10**, and implemented **20-version** resume retention.
- Built Redux Toolkit state management with **6 feature slices** and created persistent drag-and-drop resume section reordering using **@dnd-kit**.

Finora *Next.js • TypeScript • PostgreSQL • Prisma ORM • OpenRouter • Tailwind CSS*

[Live](#) | [GitHub](#)

- Built a full-stack expense tracker with **4+ features**, including AI receipt scanning, budgeting, savings goals, and recurring transaction management.
- Implemented server-side authentication and **multi-user data isolation**, enforcing ownership checks across expense records and protected operations.
- Optimized Prisma queries with **composite indexes** and connection pooling for dashboard and transaction queries.
- Built dashboards for **10+ categories** with monthly/yearly insights and AI auto-tagging via OpenRouter.

Trim *Next.js • PostgreSQL • Drizzle ORM • JWT • Zod • GitHub Actions*

[Live](#) | [GitHub](#)

- Built a full-stack URL shortener with **5+ features**, including custom aliases, link expiry, QR codes, CSV export, and **14-day** click analytics.
- Implemented secure authentication from scratch using **script** password hashing, short-lived JWT access tokens, rotating refresh tokens in **HttpOnly cookies**, rate limiting, and ownership checks.
- Added **57 Vitest unit tests**, Zod API validation, automated Drizzle migration checks, production builds, and CI/CD workflows using **GitHub Actions** and Vercel.

Certifications

- | | |
|--|------|
| • Oracle Certified Agentic AI Foundations Associate | 2026 |
| • Programming in Java (NPTEL) — IIT Kharagpur | 2023 |
| • Docker Foundations Professional Certificate — Docker & LinkedIn Learning | 2026 |
